# KRAVIG RED ANGUS

Cattle working for You!

Friends and Cattle Producers,

Welcome and thank you for your interest in our program! This year we are again very excited and proud to offer an outstanding set of yearling bulls and heifers that are backed of a very efficient, and functional set of cows that know how to work for you! Although the cattle, our genetics, and our cattle's ability to "work for you" is near the top of our priority list, I must say that it is the friends, the producers, and the family who show up in support of our program that make all of the hours of hard worth it!

Dennis Kravig, instilled in me in at a young age the importance of fitting your cattle to the environment, not the environment to your cattle. Along with that philosophy it has always been of utmost importance to put extra emphasis on efficient and adaptable cattle, thus we derived our motto of "Cattle Working For You!" To put it simply

our motto can be interpreted as this; Our cattle have been bred and developed to survive on their own through the extreme and diverse weather that Eastern Colorado offers. By forcing these cattle to go out on the short grass prairie and forage for the majority of their diet we have been able to eliminate certain genetics that need extra TLC just to remain in production. By raising cattle who have the ability to survive in our program with little supplementation of feed we feel and it has proven true that when they leave our ranch and go to areas with more abundant moisture and forage they excel and will remain in production for years to come. With the high cost of production we believe now more than ever in the importance of the value we put into each and every animal we produce. Traits such as easy fleshing, calving ease, udder quality, disposition, and structure from the ground up is a must for the cattlemen to remain profitable. Cattle that have the ability to stay on the land, are highly fertile and have the "front pasture" eye appeal has become the standard for us.

With a common sense approach, we have been able to blend all of these traits together to produce quiet, structural sound cattle, who also have calving ease, above average growth and top quality carcass traits to assist every commercial cattlemen in the industry in developing their own set of top shelf efficient females who calve on their

own, work for you, and wean off a big healthy calf each fall, who continue to grow and bring extra dividends when they go to the rail.

This year the bulls were fed and developed at home on the ranch in Karval, Colorado and were grown in a manner that matches our philosophy of low input cattle. The bulls and heifers are in great shape and are ready to start making a living in any environment.

As you make your plans for the coming breeding season come take a look at our offering, and come look at the cowherd that is behind them. These genetics are tried and true and we believe these cattle will speak for themselves.

Thanks for your interest and support of Kravig Red Angus. We look forward to seeing and visiting with you on April, 9!

Aaron Kravig

# Sale schedule

---

## cattle viewing

Bulls and heifers are availing to look at prior to the sale at the ranch in Karval, Colorado.

## april 8th

The entire offering will be penned and available for viewing at Burlington Livestock Exchange on Wednesday April 8th.

## april 9th

Cattle will be available for viewing Thursday, April 9 am -12 pm  
Lunch will be available at the buyer's expense in the sale barn café.  
Sale starts at 12 pm MST

VIDEOS WILL BE AVAILABLE THROUGH  
DVAUCTION.COM AND OUR WEBSITE, [WWW.KRAVIGREDANGUS.COM](http://WWW.KRAVIGREDANGUS.COM)

*'Cattle Working For You!'*

## INTERNET BIDDING

If you are unable to attend the sale for any reason, internet bidding is available via the DV Auction or CattleUSA websites. Internet buyers must create an account and request a buyer number prior to the sale. If you choose to use this service please visit our sale at DVAuction.com.

## TERMS & CONDITIONS

Sale will begin at 12 p.m. MST. All bidder disputes will be handled by the auctioneer and his decision will be final. The terms of the sale are cash or check payable immediately upon the conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle. Bidding through both CattleUSA and DVAuction will also be available for those not in attendance on sale day.

## DELIVERY

Free Delivery to central points within 200 miles. Delivery assistance beyond 200 miles will be arranged at least cost to the buyer.

## FEEDING & CARE

All bulls that are not being delivered will be kept free of charge until April 28. Bulls picked up after April 28th are subject to an additional feed cost.

## LIABILITY

All persons attending the sale and related functions do so at their own risk. Burlington Livestock Exchange, its staff and representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

## RISK MANAGEMENT

When the gavel falls the bulls are considered sold to the highest to bidder, however the buyer may leave their bulls at our ranch until delivery at the buyer's risk. We will take care of the cattle to the best of our liability, but the bulls are the buyer's responsibility and we encourage you to purchase insurance on your bulls.

## SALE ORDER

We plan to sell in catalog order. Any corrections or changes will be announced on sale day.

## BREEDING GUARANTEE

All of the bulls will have passed a breeding soundness exam prior to the sale. We will honor a 1st season breeding guarantee on all reproductive issues. Livestock insurance is highly suggested to cover issues that may arise outside of reproductive issues.

## RED ANGUS CATEGORIES

1A – 100% Red Angus 1B – 87.5% to 99% Red Angus Category 3 – 75% Red Angus (Purebred Red Angus lacking pedigree) Commercial – Not papered (Purebred Red Angus lacking pedigree)

# RED ANGUS GUIDE TO EPDS

For more information, visit [RedAngus.org](http://RedAngus.org).

- HB** – HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)
- GM** – GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)
- CED** – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)
- BW** – Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)
- WW** – Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)
- YW** – Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)
- ADG** – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

- DMI** – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)
- MILK** – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)
- HPG** – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)
- CEM** – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)
- STAY** – Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)
- MARB** – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)
- YG** – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)
- CW** – Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)
- REA** – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)
- FAT** – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

A clean made, powerfully constructed Deliverance son. This bull puts calving ease, growth, and a strong set of maternal genetics all together in a very attractive moderate framed package. He is as deep and as wide bodied as anything in the offering and is the type and kind we strive to produce. Retaining 1/3 semen interest.

Here is the first son of OOO Red Bear 7162 to sell in the lineup. 9030 has impressed me more and more everyday since he was born. He is a big middle bull packed full of red meat from top to bottom and end to end. His dam is a top producing cow for us with an MPPA of 106! His 3/4 sibling resides on our ranch and is quickly making his way to the top of our sire lineup. If you want a new herd bull who will sire front pasture females, and steers that push the scales down at weaning don't let this bull go on sale day. From calving ease, to growth, to carcass he has it all! Retaining 1/3 semen interest.

Efficient, growthy, heavy muscled, calving ease, docile. Here are just a few of the terms that come to mind when I analyze this herd bull prospect. He is a stout made, heavy muscled bull with big time calving ease. With both 5L Admiral and Calvo Red Knight is his pedigree you won't want to part ways with any of his daughters. We plan to sample Roddam 9040 in our own herd this spring. Retaining 1/3 semen interest

This bull could have and should have been in the front of the catalog, 9046 is a big middle, soft flanked bull out of a tremendous TR Colt cow who has served as a donor cow in several programs. This guy is stout made, easy on the eyes and moves out like a cat. Here is an opportunity to purchase a big-time herd bull who will sire tremendous females and add growth and performance to your steers.

Looking for a heifer bull, or your next herd sire? Look no further, this May born calf will meet your every need. He has Bieber Spartacus and Bieber Hard Drive on the paternal side of his pedigree and is out of a well-balanced, sound uddered cow sired by the \$100,000 bull, 5L Out in Front 1701457B. He is as impressive in his phenotype as he is on paper. This bull might be one of the younger bulls in the pen, but you would never guess it by looking at him!

This extremely moderate, long bodied bull is a favorite of ours here on the ranch. If you raise grass cattle and want a set a females to build a herd around, this is your guy. We might have made a mistake by putting him so far down sale order because he deserves to be in the top 5. He is as wide as he is deep and is as docile as they come. Retaining 1/3 semen interest.

This is the youngest calf in the sale, and he was not originally going to be in the sale this spring, however we have watched him grow and develop and he has played catch up to the older bulls. He would be well suited for a summer program and will sire a very functional set of calves.

Here is a high marbling, light birthweight bull, backed by a tremendous cow family. His dam is a full sister to OOO Sirloin 5122 and is doing a bang-up job working for her living here on our ranch. This bull battled sickness this fall, and it hurt his early growth, but we are confident he will continue to grow and impress you.

## Yellow Tag Yields Green Results

Value of one load of FCCP-enrolled 600-pound calves versus one load of non-enrolled 600-pound calves.

- The Red Angus Feeder Calf Certification Program (FCCP) is the beef industry's longest-running and best-recognized age, source and genetically verified calf-enrollment program with no installment fees.
- Research from Kansas State University and Superior Livestock shows FCCP-enrolled Red Angus-influenced calves earned a \$2.75-per-cwt premium over non-enrolled Red Angus-influenced calves.
- More than \$16 premium on 600 lb. calf – equates to \$1,320 difference on a single load of calves!\*

\*Based on 80-head load of calves.

# BRED COWS

This year we have made the decision to include 11 head of fancy spring bred 1A registered cows and 1 open donor cow. These are young cows will be calving late March-May and if we had a little more grass, or more feed available these fancy ladies wouldn't be for sale. The bred cows are the result of selective breeding and many are ET calves that are backed by some of the best the Red Angus breed has to offer. They were AI bred in late June and were cleaned up with Kravig Red Angus bulls for 60 days. They have been preg checked safe with calf, and we have listed their approximate calving dates in the footnotes of each lot.

We might have saved the best for last in this offering of cows. 5115 combines phenotype, growth and carcass together in a very attractive package. She has a powerful pedigree and is chock full of performance. She is selling AI bred to WFL Merlin O18A due in late March or Early April. This is an exciting mating and the expected calf should be a home run! She sells with a March 11th WFL Merlin O18A heifer calf at side.

This year we are offering 12 head of very fancy, functional open heifers that are ready to breed to the bull of your choice. This set of heifers sells un-branded and will make an excellent addition to anybody's cow herd.
